

Kewaskum School District

The following are guidelines for students who use prescription inhalers for the treatment of breathing problems:

Inhalers will be kept in the locked first aid cabinet located in each school's office area, and a written record will be kept each time one is administered. A prescription medication form signed by the parent and doctor must be on file in the school office.

An inhaler may only be carried by a student when the physician indicated the need to do so and a permission form to that effect is on file in the school office. These students should be cautioned by their doctors and parents that inhalers are a prescribed medication for their use only and should not be shared with others.

Every inhaler, whether kept in the school cabinet or carried, must have the student's name on it.

Permission to carry prescription inhaler

_____ should carry his/her prescription inhaler at all times during the school day.

Name of medication: _____

Reason medication is being prescribed: _____

Possible side effects: _____

Physician's signature _____ Date _____
